Three Year Term For Leader of Militants Endorsed by London Press-American Charge at London Embassy Notifies State Department That Miss Emerson is Not Being Cruelly Treated in Jail-Hysterical Appeal by Mother.

London, April 2.—The sentence of three years' penal servitude imposed on Mrs. Emmeline Pankhurst, the leader of the militant suffragettes, for inciting her followers to destroy property, has aroused the militants to fury and they threaten strong reprisals. Those who are to carry on the fight during the leader's incarceration, which nobody believes will be for long, breathed defiance to the government and promised that the fight would be waged more furiously than ever. One of the leaders, whose name is suppressed, gave out the fol-lowing statement:

A sweeping canvass of the senate has been undertaken to determine just how far the democratic members will go in support of the policies of the president. The decision to put raw wool on the free list, and the threat of free sugar have stirred up the senate democratic forces to such an extent that members of the finance committee told the president tonight some im-portant changes would have to be made in the present draft of the bill if it is to meet with a cordial reception

Free Wool and Free Sugar Impossible The senate leaders have made it dear that it would be impossible to pass a bill carrying both free wool and free sugar.

It appeared fairly certain tonight either that the sugar duty would be proposed at a compromise point of one cent per pound, possibly with a provision that it should be entirely abolished in three years; or that there should be a gradual reduction of 25 per cent, from the existing duty, until it had disappeared.

The senate leaders did not reach any general agreement with the president. The results of their conference will be laid before the entire democratic membership of the finance committee at a meeting tomorrow morning.

Practically all of the members of the commission tonight were agreed with Governor Cax in the plan amounced today of state aid for the rehabilitation of the pinns in the state which have suffered meet from high waters. In brief, the plan calls for the enactment of a law by the legislature by which municipalities and other political subdivisions would be able to issue bends immediately without submitting the bond issues to a vote of the people.
